PROFILE

Passionate fullstack developer with 2+ years of experience designing and deploying performant, scalable web applications. Proficient in JavaScript (React, Next.js, Node.js), C#/.NET, and PHP/Symfony, with solid database skills across relational and NoSQL systems. Experienced in Agile/Scrum environments, I deliver tailored solutions from requirements gathering through production. Available for remote work with international clients.

PROFESSIONAL EXPERIENCE

Fullstack JS Developer — *Freelance*

Jan. 2024 – Present

- Designed and developed tailor-made web applications for various clients
- Built ergonomic, reactive user interfaces using React and Tailwind CSS
- Developed REST and GraphQL APIs with Node.js, Express, and Prisma
- Integrated online payment solutions (Stripe, Google Pay, Apple Pay)
- Collaborated directly with clients to gather requirements and propose suitable technical solutions

Stack: Node.js, GraphQL, React.js, Tailwind CSS, Stripe, Next.js

Fullstack JS Developer — *Devphantom*

Mar. 2025 – Mar. 2026

- Designed and developed custom web applications aligned with client requirements
- Implemented responsive UI/UX designs across multiple screen sizes
- Integrated internal and external APIs

Stack: Next.js, oRPC, Symfony, Stripe, Tailwind CSS, shadcn/ui, DocuSeal

React & .NET Developer — *Ravinala Airports*

Jun. 2024 – Mar. 2025

- Developed a full-scale project management application (phases, resources, budgets)
- Implemented a user management system with role-based access control and permissions
- Built interactive dashboards with custom filters and sorting for real-time project tracking
- Set up real-time notifications and deadline reminders
- Collaborated with internal teams to align the application with existing business processes

Stack: React.js, C# .NET, SQL Server, Tailwind CSS

Mobile Developer — *CELTO (Fixed-term contract)*

Dec. 2023 – Jan. 2024

- Developed a mobile app to streamline cheese production (milk collection through retail distribution)
- Tracked milk volumes per supplier to support payment processing and transaction management
- Developed a web back-office for data administration and operational monitoring

Stack: React Native, QR code (scan/generate), React.js, Tailwind CSS, SQLite, Prisma

WordPress Plugin Developer — *Materauto (Internship)*

Oct. 2022 – Jan. 2023

- Designed and developed a WordPress plugin integrating an AI-powered chatbot
- Implemented an AI model to answer user questions and route complex inquiries to the right staff
- Automated service information requests and vehicle rental pre-bookings

Stack: Python, TensorFlow, Keras, JavaScript, PHP

TECHNICAL SKILLS

Front-end: React.js, Next.js, Tailwind CSS, shadcn/ui

Back-end: Node.js, Express, GraphQL, oRPC, C# .NET, PHP (Symfony, Laravel)

Mobile: React Native

Databases: MongoDB, MySQL, PostgreSQL, SQLite, SQL Server

Payments: Stripe, Google Pay, Apple Pay

DevOps / Tools: Git, UML, Merise, Agile / Scrum
